---

<sup>1</sup> **Solid State Hard Drives *do not* need defragging.** The SSD is *in addition* to a mechanical drive. We strongly advise against using SSD's on versions of Windows earlier than Windows 7.

<sup>2</sup> Blu-Ray writers will also read and write CDs and DVDs. Blu-Ray readers will also read and write CD's and DVD's but not Blu-Ray.

<sup>3</sup> £50 monitor upgrade on "complete system" only, otherwise 23.6" monitor on its own is £140.

<sup>4</sup> To use all 16Gb of memory a 64-bit operating system is required. All 32-bit operating systems can only use a maximum of 4Gb of memory. **Windows 7 Home Premium 64-bit can only use 16Gb maximum, 7 Pro and higher can use 192Gb. Windows 8 64-bit can use 128Gb of memory, 8 Pro can use 512Gb.**

<sup>5</sup> Only if purchased with a computer on this display. Software is a download from Microsoft's website. **There is no physical media. Only for use on Windows 7 or 8.**

<sup>6</sup> Includes Microsoft Word, Excel, Powerpoint Access, Publisher, Onenote and Outlook. **Does not work under any version of Windows earlier than Windows 7.** After one year, if you do not renew subscription, the software *will not* allow files to be created or edited. Can be installed on up to 5 PC's. **Product Key Only – there is no physical media.**

<sup>7</sup> Only if purchased with a computer on this display. Otherwise £20. 3 user available for £35.
